Castle greenhouses have a downpipe set as a standard feature, something found generally on only the more expensive greenhouses. Freestanding greenhouses have two stop ends for the integral gutters, two 90 degree outlets, downpipes, retaining clips and a 45 degree knuckle to turn the pipe towards a barrel (not included) or just to direct the water away from the framework.

Castle Dunbar Greenhouse | GBC Group
The Elite Compact comes with horticultural glass as standard as traditionally greenhouses have been glazed with this to keep costs low. Panes are 2ft x 2ft overlapping and joined with S clips. We recommend upgrading to toughened glass which is a much safer option. This is much stronger glass, better able to withstand damage from children ...
