Paper 01 - Welcome to the ABPI Exam website

An ABPI (Ankle Brachial Pressure Index) is essential to establish arterial perfusion of the lower limb before compression therapy can commence. The results of these investigations combined with the clinical assessment of the patient and the limb will help confirm a diagnosis. A normal ABPI alone does not confirm venous disease.

ABPI: Essential diagnostic prior to compression

The ABPI exam is a certified qualification for current or prospective medical representatives and other people who promote medicines in the UK. These qualifications examine the skills and knowledge required to promote medicines and since 2014 it has been accredited by Industrial Qualifications based accredited units, resulting in:
