~~Aging Together: Dementia, Friendship, and Flourishing ...~~

"Aging Together: Dementia, Friendship and Flourishing Communities" is one of few books to speak directly about friendship in a time when so many people (1 in 8 over age 65) will develop dementia. "Aging Together" was written by a husband-wife team (the former a minister of 30 years, the latter a psychology professor), and while the book's

~~Aging Together: Dementia, Friendship, and Flourishing ...~~

Aging Together began Dementia Friends training sessions in 2019. But because of the pandemic real-life trainings are in hiatus. However, you can still become a Dementia Friend by completing the online program which only takes about an hour.

~~Dementia Friends - Aging Together~~

Aging Together: Dementia, Friendship, and Flourishing Communities Susan H. McFadden and John T. McFadden Never in human history have there been so many people entering old age -- roughly one-third of whom will experience some form of neurodegeneration as they age.

~~Aging Together: Dementia, Friendship, and Flourishing ...~~

A recent book, Aging Together: Dementia, Friendship and Flourishing Communities by Susan H. and John T. McFadden (Johns Hopkins University Press, now out in paperback), is an excellent guide for anyone who cares about a friend with dementia. It's addressed primarily to persons who have not given much thought to what will happen to their own friendships when forgetfulness increases.
