A nautical almanac is a publication describing the positions of a selection of celestial bodies for the purpose of enabling navigators to use celestial navigation to determine the position of their ship while at sea. The Almanac specifies for each whole hour of the year the position on the Earth's surface (in declination and Greenwich hour angle) at which the sun, moon, planets and first point ...

MICA - Multiyear Interactive Computer Almanac. MICA is an easy-to-use program that computes many of the quantities that are tabulated in The Astronomical Almanac, but covers the 250-year period, 1800-2050. It allows the user to compute this information for specific locations and specific times and is available for both PC and Macintosh computers.
