Cycle Guide recorded a best time of 14.13 seconds for the 500 versus 13.74 for the 750. In many ways a scaled-down CB750 Four, the Honda CB500 Four engine did have some notable differences, including a Morse Hy-Vo chain to drive the transmission, and wet sump lubrication, eliminating the oil tank used on the dry sump 750.

The Honda CB500 Four - Classic Japanese Motorcycles ...
The CB500 Four is styled like the CB750, but smaller and lighter, with a claimed of 50 bhp (37 kW) output and a top speed of 115 mph (185 km/h). Like the earlier CB750 it has a single front hydraulic disc brake, rear drum brake, electric starter, and sohc eight-valve engine. The four-into-four exhaust pipes echoed those of the CB750.

Honda CB500 Four - Wikipedia
DOHC TWIN-CYLINDER ENGINE Honda twins are famous for their versatility, and the CB500F's engine is one of our best ever. With plenty of low-end horsepower and torque, this parallel-twin offers accessible performance across all RPM ranges.

2021 CB500F ABS OVERVIEW - Honda
The problem is, we're impatient. Heck, sometimes we're just downright lazy. Because it wasn't long after we decided that our next bike should be a Seventies Honda of some sort that one of Backus' buddies e-mailed him a photo of his latest barn find, a 1973 Honda CB500 Four, which sounded like the perfect project bike to us.

Project Café: Rebuilding a 1973 Honda CB500
I'm preparing a CB500 engine for the Minutwins class at 3 Sisters and Tonfanau and I'm hoping for a bit of technical advice on how to increase it's performance. We've already had a play with air filter removal along with main jet increase, but this produced very little. I'm guessing that the air intake on the right hand side of the bike is the ...
