In this episode, we talk to John R. Grillo, P.E., a Project Executive at Keller about ground improvement techniques, deep foundation design, and the latest drilling techniques they have been using. He also provides some great advice for geotechnical engineers who are looking at moving into a leadership role.

Geotechnical Engineering: Foundation Design by Cernica ...

Foundation engineering requires a broad range of skills, from an appreciation of geology and hydrogeology to structural engineering. The performance of foundations is dependent not only on how they are designed, but also on how they are constructed. The overall design process needs to be well managed, to ensure that there are good communications between different design teams and between ...
