Chapters examine the different phases of the process of central bank strengthening, focusing on the actors involved, the interactions between them, and the political strategies they employed, and analyse the consequences of the process for the shift in macro-economic management and in the mode of state involvement in the economy. Addressing the political and institutional processes that have led to the fundamental transformation of Israeli political economy,

Between 2013 and 2018, Israel had a female governor of its Central Bank. When the Covid-19 crisis began, she was interviewed about the required policy and said: 'Israel has a debt/GNP relation that could allow it extensive government activity even at the price of a temporary rise of the financial deficit'.
