Visual Culture Reader—
Google Books~~

This Reader brings together, for the first time, key writings about the nineteenth century, a key period in contemporary discussion of visual culture. Exploring such topics as photographs, exhibitions and advertising the editors suggest that 'modernity' rather than 'modernism' is a valuable way of understanding the changes particular to the visual culture of the time, and they investigate a ...

During the nineteenth century, gridding, graphing, and surveying proliferated as never before as nations and empires expanded into hitherto "unknown" territories. Though nominally geared toward justifying territorial claims and collecting scientific data, expeditions also produced vast troves of visual and artistic material.

~~Culture Reader~~ project examines theatre spectacle and spectatorship in the nineteenth century by considering it in relation to the emergence of a wider trans-medial popular visual culture in this period. Responding to audience demand, theatres used sophisticated, innovative technologies to create a range of spectacular effects, from convincing evocations of real places to visions of the fantastical and the supernatural.
