The Orchestral Flute Practice Book
Orchestration is the study or practice of writing music for an orchestra (or, more loosely, for any musical ensemble, such as a concert band) or of adapting music composed for another medium for an orchestra. Also called "instrumentation", orchestration is the assignment of different instruments to play the different parts (e.g., melody, bassline, etc.) of a musical work.

The flute was an important part of these groupings. By 1600, plucked and bowed instruments were combined with flute in mixed consort music. During this period, Italian and Netherlands flute makers experimented with the size of the flute's bore, added an E flat tone hole and divided the flute into sections that made storage and travel easier.
